

I-SAFE 1

RADAR SPEED SIGN

The I-SAFE 1 is a speed display device that shows text and picture messages. This portable speed display sign combines user-friendly software and vibrant display elements for improved road safety. It alternates the display of the speed with 39 cm (15 in) digits and that of pictograms relating to the user's behaviour. With its integrated radar and removable battery, it is mobile and easy to operate. It can also be equipped with a solar power supply kit or connected to public lighting.

CONFIGURATION

- Coloured speed information (green, yellow or red according to driver behaviour)
- Pictograms or short text messages
- Setup without PC
- Easy and quick installation
- Sign options: MUTCD-compliant, amber LED, or 3-LED display colours (green, orange, red)
- Predefined speed zone settings
